Roads

SS12 Branzoll-Bozen, Italy

S10 Mühlviertel Expressway, Austria

SS12 Vahrn Bypass Road, Italy

Fields of Expertise

- Motorways, trunk roads
- Access points
- Roads outside cities, towns or villages
- Urban roads
- Access roads
- Pedestrian and bicycle traffic facilities
- Parking spaces, car parks and parking guidance and information systems

Highlights

- 40 years of experience and competence in alignment selection
- 1,500 km of roads - project management, design and construction supervision
- Road construction projects including tunnels, bridges and other structures in mountainous and urban areas
- 286 km - study for a large-scale road construction project with several tunnels (Jammu-Srinagar, India)
- 350 km - motorway link in Armenia from the Georgian to the Iranian border
- All specialist disciplines covered in-house (road construction, geology, hydrology, ecology, geotechnics, civil and tunnel engineering, electro-mechanical operation and safety equipment, toll and traffic management systems, etc.)

ILF-Services

ILF provides all services required for the preparation and realisation of road projects:

- Feasibility studies
- Traffic management concepts (incl. pedestrian and bicycle traffic, public transport, parking management)
- Traffic analyses, traffic flow analyses, traffic simulations
- Risk analyses, safety concepts and planning
- Road safety audits
- Conceptual design / approved conceptual design
- Study of alternatives, alignment selection procedure
- Economic feasibility studies
- Permit application design, design documents for the environmental impact assessment (EIA) and all other permitting procedures, assistance with these procedures
- Project management, coordination of all parties involved in the design throughout all design phases
- Assistance with public relations work
- Detailed design
- Tender design
- Bid evaluation
- Construction design
- Construction supervision
- Construction management

ILF Consulting Engineers (ILF) consists of several international and independent engineering and consulting companies. ILF offers international top-quality design and consulting services in the Oil & Gas, Energy & Climate Protection, Water & Environment, Transport & Structures sectors. Our clients rely on ILF's comprehensive capabilities and professional know-how that the company has acquired in more than 40 years.
